

1. System Context

1.1 Context Diagram

1.2 Actor List

Actor	Description	Notes
Admin	Manages user accounts, roles, and system configuration	Created by initial setup; cannot self-register. Inherits all HR Manager permissions.
HR Manager	Creates and manages job postings; manages the full recruitment pipeline	Account created by Admin
Interviewer	Evaluates candidates explicitly assigned to them	Account created by Admin; can only access their own assigned applications
Candidate	Applies for active job postings and tracks their own application status	Self-registers via the public registration page
Guest	Browses Public Job List without signing in	Read-only access to Active job postings only

Role hierarchy: Admin inherits all HR Manager permissions. No other role inheritance applies.

2. Navigation Map

2.1 Screen Index

SCR-ID	Screen Name	Module	Entry Points
SCR-01	User Login	User Authentication	Direct URL <code>/login</code> ; any protected route redirects here
SCR-03	User Register	User Authentication	SCR-01 "Create an account" link
SCR-04	Change Password	User Authentication	SCR-05 "Change Password" button
SCR-05	User Profile	User Authentication	Top-nav username dropdown
SCR-06	HR Dashboard	Dashboard & Reporting	Post-sign-in redirect (HR Manager / Admin); sidebar
SCR-07	Admin Dashboard	System Admin	Post-sign-in redirect (Admin role); sidebar
SCR-08	User Management	System Admin	SCR-07 "Manage Users" link; sidebar
SCR-09	Activity Log	System Admin	SCR-07 "Activity Log" link; sidebar
SCR-10	Job List	Job Management	Sidebar "Jobs" link
SCR-11	Job Form	Job Management	SCR-10 "Create New Job" button; SCR-10 "Edit" button
SCR-12	Job Detail	Job Management	SCR-10 job title link
SCR-13	Public Job List	Candidate Portal	Direct URL <code>/jobs</code> ; nav header "View Jobs"
SCR-14	Public Job Detail	Candidate Portal	SCR-13 "View Details" button
SCR-15	My Applications	Candidate Portal	Sidebar "My Applications"; post-sign-in redirect (Candidate)
SCR-16	Application List	Recruitment Pipeline	SCR-12 "Applications" tab; SCR-10 application count link
SCR-17	Application Detail	Recruitment Pipeline	SCR-16 "Open" button; SCR-18 interviewer sidebar
SCR-18	AsUser Loginterviewer	Interview & Evaluation	SCR-17 "Interview Assignment" button
SCR-19	Evaluation Form	Interview & Evaluation	SCR-17 "Submit Evaluation" button; Interviewer sidebar
SCR-20	Pipeline Report	Dashboard & Reporting	SCR-06 job row click; SCR-12 "Report" tab

2.2 Navigation Flow by Role

HR Manager - typical recruitment flow:

```
User Login (SCR-01)
  → HR Dashboard (SCR-06)
    → Job List (SCR-10)
      → Create / Edit Job (SCR-11)    [create new or edit draft]
      → Job Detail (SCR-12)          [manage specific posting]
        → [Publish job] Draft → Active
        → Application List (SCR-16) [review all applicants]
          → Application Detail (SCR-17) [act on one candidate]
            → [Add internal note]
            → [Advance / Reject candidate]
            → Interview Assignment (SCR-18)
            → [View submitted evaluations]
          → [Close job] Active → Closed
    → Pipeline Report (SCR-20)
    → User Profile (SCR-05) → Change Password (SCR-04)
```

Candidate - application flow:

```
Public Job List (SCR-13)    [no sign-in required]
  → Job Detail / Public (SCR-14)
    → [Click Apply]
      → User Login (SCR-01) {if not signed in}
      → User Register (SCR-03) {if no account}
      → [Submit application with CV] → confirmation on SCR-14
  → My Applications (SCR-15) [track all submissions]
    → [Withdraw application] {only from APPLIED or SCREENING}
```

Interviewer - evaluation flow:

```
User Login (SCR-01)
  → Application Detail (SCR-17) [own assigned applications only]
    → Evaluation Form (SCR-19) [submit rating + written feedback]
      → [Submit] → EVALUATED (immutable after this point)
```

Admin - user management flow:

```
User Login (SCR-01)
  → Admin Dashboard (SCR-07)
    → User Management (SCR-08)
      → [Create HR Manager / Interviewer account]
      → [Deactivate account]
      → [Unlock locked account]
    → Activity Log (SCR-09)
```

3. Screen Inventory

3.1 User Authentication

3.1.1 User Login (SCR-01)

Field	Value
Who can see	All - accessible only when not signed in
Purpose	Allows any user to authenticate and reach their role-specific area of the system

UI Components:

Component	Type	Description
System logo	Image	TalentHub logo, centred above the form
Page title	H1	"User Login to TalentHub"
Username / Email field	Input text	Label "Username or email", required
Password field	Input password	Label "Password", show/hide toggle, required
User Login button	Button primary	Full-width; submits the form
"Create an account" link	Text link	For Candidates who have not yet registered → SCR-03
Generic error banner	Alert banner	{ Shown on any sign-in failure } "Incorrect username or password." - identical message regardless of failure reason
Lockout banner	Alert banner	{ Shown when account is LOCKED } "Your account has been temporarily locked after too many failed attempts. Try again in 10 minutes or contact your administrator."

Navigation Flow:

- User Login success (Admin) → SCR-07 (Admin Dashboard)
- User Login success (HR Manager) → SCR-06 (HR Dashboard)
- User Login success (Interviewer) → SCR-17 (Application Detail - first assigned application)
- User Login success (Candidate) → SCR-15 (My Applications)
- Click "Create an account" → SCR-03 (User Register)

Display Conditions:

- {User is already signed in} Redirect to their role dashboard immediately - SCR-01 is not shown to authenticated users
- Generic error banner and Lockout banner are mutually exclusive - only one is shown at a time
- "Create an account" link is always visible - do not hide it even when a lockout banner is showing

3.1.2 Password Reset (SCR-02)

a. Password Reset Request

Field	Value
Who can see	All (unauthenticated)
Purpose	Allows a user to request a password reset link by email

UI Components:

Component	Type	Description
Page title	H1	"Reset your password"
Instruction text	Paragraph	"Enter your email address and we will send you a link to reset your password."
Email field	Input text	Required
Send Reset Link button	Button primary	Full-width
"Back to Sign In" link	Text link	→ SCR-01
Success banner	Alert banner	{ Shown after submission } "If an account with this email exists, a reset link has been sent." — shown regardless of whether the email exists (prevents account enumeration)

Display Conditions:

- {Google-only account} Not reached via the normal reset flow — Google accounts are directed to sign in with Google on SCR-01

b. Password Reset Confirm

Field	Value
Who can see	All (unauthenticated) — accessed via email link
Purpose	Allows a user to set a new password after clicking a valid reset link

UI Components:

Component	Type	Description
Page title	H1	"Set your new password"
New password field	Input password	Required. Same complexity rules as registration.
Confirm new password field	Input password	Required. Must match new password.
Set Password button	Button primary	Full-width
Expired / used link banner	Alert banner	{ Shown when token is invalid, expired, or already used} "This link has expired or has already been used. Request a new reset link." with button → SCR-03

Navigation Flow:

- Password set successfully → SCR-01 with banner: "Password updated — please sign in with your new password."

3.1.3 User Register (SCR-03)

Field	Value
Who can see	Guest (unauthenticated visitors only)
Purpose	Allows a new Candidate to create their own account

UI Components:

Component	Type	Description
Page title	H1	"Create your account"
Full name field	Input text	Label "Full name", required
Username field	Input text	Label "Username", required. Helper text: "4–50 characters. Letters, digits, and underscores only."
Email field	Input text	Label "Email address", required
Password field	Input password	Label "Password", required. Helper text: "At least 8 characters, including 1 uppercase letter and 1 number"
Confirm password field	Input password	Label "Confirm password", required
Create Account button	Button primary	Full-width. {Disabled while required fields are empty}
"Already have an account?" link	Text link	→ SCR-01 (User Login)
Inline validation errors	Alert (per field)	Shown below each field that fails validation on form submission

Navigation Flow:

- Registration success → SCR-01 (User Login) with flash success message: "Account created successfully. Please User Login."
- Click "Already have an account?" → SCR-01

Display Conditions:

- {User is already signed in} Redirect to their role dashboard - SCR-03 is not shown to authenticated users
- {Username already taken} Inline error below username field: "This username is already taken. Please choose another."
- {Email already registered} Inline error below email field: "This email address is already registered."
- {Passwords do not match} Inline error below confirm password field: "Passwords do not match."

3.1.4 Change Password (SCR-04)

Field	Value
Who can see	All authenticated users
Purpose	Allows any signed-in user to change their own password

UI Components:

Component	Type	Description
Page title	H1	"Change Password"
Current password field	Input password	Label "Current password", required
New password field	Input password	Label "New password", required. Same helper text as SCR-03.
Confirm new password field	Input password	Label "Confirm new password", required
Save button	Button primary	"Change Password"
Cancel button	Button secondary	Returns to SCR-05 without saving

Navigation Flow:

- Success → SCR-05 (User Profile) with flash success message: "Password changed successfully."
- Cancel → SCR-05 (User Profile)

Display Conditions:

- {Current password incorrect} Inline error below current password field: "Incorrect current password."
- {New passwords do not match} Inline error below confirm field: "Passwords do not match."
- {New password same as current} Inline error: "New password must be different from your current password."
- {New password too weak} Inline error listing the specific requirement(s) not met.

3.1.5 User Profile (SCR-05)

Field	Value
Who can see	All authenticated users
Purpose	Displays the current user's account information and provides access to password change

UI Components:

Component	Type	Description
Full name	Text (read-only)	Displayed as a label - not editable in v1
Username	Text (read-only)	Displayed with a note that it cannot be changed
Email	Text (read-only)	Displayed - not editable in v1
Role badge	Badge	Displays the current role (Admin / HR Manager / Interviewer / Candidate) - not editable by the user
Change Password button	Button secondary	→ SCR-04 (Change Password)
Sign Out button	Button danger	Signs the user out and redirects to SCR-01

Navigation Flow:

- Click "Change Password" → SCR-04
- Click "Sign Out" → SCR-01 with flash message: "You have been signed out."

Display Conditions:

- All roles see the same profile structure - no role-specific variations on this screen

3.2 Dashboard & Reporting

3.2.1 HR Dashboard (SCR-06)

Field	Value
Who can see	HR Manager, Admin
Purpose	Gives HR Manager a real-time snapshot of active recruitment activity

UI Components:

Component	Type	Description
Active jobs count	Card	Number of job postings with status = ACTIVE. Clickable → SCR-10 filtered to Active.
Applications awaiting review	Card	Count of applications with status = APPLIED across all managed jobs. Clickable → SCR-10.
Upcoming interviews	Card	Count of interviews scheduled in the next 7 days.
Active jobs table	Table	Columns: Job title (linked to SCR-12), department, application count, deadline. Sorted by most recent first.
"Create New Job" button	Button primary	→ SCR-11 (Job Form)

Navigation Flow:

- Click active jobs count card → SCR-10 (Job List, filtered to Active)
- Click job title in table → SCR-12 (Job Detail)
- Click "Create New Job" → SCR-11
- Sidebar → SCR-10 (Jobs), SCR-20 (Reports), SCR-05 (Profile)

Display Conditions:

- [HR Manager] Counts and table show only jobs and applications for postings created by this HR Manager
- [Admin] Counts and table show all jobs and applications across all HR Managers
- {No active jobs} Active jobs table replaced with: "You have no active job postings. Create one to start receiving applications." with "Create New Job" button

3.2.2 Pipeline Report (SCR-20)

Field	Value
Who can see	HR Manager (own jobs), Admin (all jobs)
Purpose	Shows a breakdown of candidates at each pipeline stage for a selected job posting, with optional export

UI Components:

Component	Type	Description
Job selector	Dropdown	{If accessed from SCR-06 dashboard} Select which job to report on. Defaults to the most recently updated. {If accessed from SCR-12 job detail} Pre-selected to that job; dropdown is hidden.
Pipeline stage breakdown	Chart	Horizontal bar chart: candidate count per stage (Applied, Screening, Interview, Offer, Hired, Rejected, Withdrawn)
Candidate table	Table	Columns: Candidate full name, current stage, days in stage, assigned Interviewer (if applicable)
"Export" button	Button secondary	{FT-27 - Could priority} Downloads the table as a CSV or XLSX file. {Hidden if FT-27 is deferred}

Navigation Flow:

- Breadcrumb "Job Detail" → SCR-12 (if accessed from SCR-12)
- Breadcrumb "Dashboard" → SCR-06 (if accessed from SCR-06)

Display Conditions:

- [HR Manager] Job selector only shows their own postings
- [Admin] Job selector shows all postings
- {No applications received for selected job} Chart and table replaced with: "No applications have been received for this job posting yet."
- Export button: shown only when FT-27 is in scope for the current release; hidden entirely if deferred to avoid confusion

3.3 System Admin

3.3.1 Admin Dashboard (SCR-07)

Field	Value
Who can see	Admin only
Purpose	Gives Admin an overview of system accounts, recent activity, and recruitment summary

UI Components:

Component	Type	Description
Total users count	Card	Count of all user accounts, broken down by role

Component	Type	Description
Locked accounts count	Card	{Shown only when count > 0} Count of currently LOCKED accounts. Clickable → SCR-08 filtered to Locked.
Recent activity summary	Table	Last 10 audit log events (event type, actor, timestamp). Clickable → SCR-09.
Recruitment summary	-	Same cards and table as SCR-06 (HR Dashboard) but for all jobs across all HR Managers
"Manage Users" button	Button primary	→ SCR-08
"View Activity Log" button	Button secondary	→ SCR-09

Navigation Flow:

- Click Locked accounts card → SCR-08 (User Management, filtered to Locked)
- Click "Manage Users" → SCR-08
- Click "View Activity Log" or any log row → SCR-09
- Sidebar → SCR-08, SCR-09, SCR-10, SCR-05

Display Conditions:

- {No locked accounts} Locked accounts card is hidden entirely - not shown as "0 locked"
- Admin sees all recruitment data (not scoped to their own jobs like HR Manager)

3.3.2 User Management (SCR-08)

Field	Value
Who can see	Admin only
Purpose	Allows Admin to create, deactivate, and unlock user accounts

UI Components for User List:

Component	Type	Description
Search bar	Input text	Search by name or email address
Role filter	Dropdown	All / Admin / HR Manager / Interviewer / Candidate
Status filter	Dropdown	All / Active / Locked / Inactive
"Create Account" button	Button primary	Opens account creation form (inline or modal)
User list	Table	Columns: Full name, username, email, role badge, status badge, date created, Actions

Component	Type	Description
Actions - Unlock	Button secondary	{ Shown only when account status = LOCKED} Unlocks immediately with confirmation dialog
Actions - Deactivate	Button danger	{ Shown when status = ACTIVE or LOCKED; hidden when only Admin account remaining} Opens confirmation dialog
Actions - Reactivate	Button primary	{ Shown only when status = INACTIVE} - Note: reactivation is not in scope for v1; this button is shown as disabled with tooltip "Not available in this version"

UI Components for User Detail (Add/Edit):

Component	Type	Description
Full name	Input text	Required
Username	Input text	Required. Same validation as SCR-03.
Email	Input text	Required. Must not already exist in the system.
Role	Dropdown	HR Manager / Interviewer. Admin role is not available via this UI.
Initial password	Input password	Required. Same complexity as SCR-03.

Navigation Flow:

- Create account success → User Management page refreshes showing new account
- Deactivate account → confirmation dialog → user list refreshes showing INACTIVE status
- Unlock account → user list refreshes showing ACTIVE status

Display Conditions:

- {Attempting to deactivate the only Admin account} Deactivate button is hidden - not shown at all for the last remaining ACTIVE Admin account
- {No users match search / filter} "No accounts match your filters."
- LOCKED accounts show a lock icon alongside the status badge to distinguish from INACTIVE
- Deactivate button is shown for both ACTIVE and LOCKED accounts (Admin may deactivate a locked account directly)

3.3.3 Activity Log (SCR-09)

Field	Value
Who can see	Admin only
Purpose	Shows Admin a searchable, filterable, chronological log of key system events

UI Components:

Component	Type	Description
Event type filter	Dropdown	All / Sign-in success / Sign-in failure / Account created / Account deactivated / Account unlocked / Account locked / Application status changed / CV downloaded / Evaluation submitted
Actor filter	Input text	Search by actor name or username
Date range - from	Date picker	Optional. Filter events on or after this date.
Date range - to	Date picker	Optional. Filter events on or before this date.
Activity log table	Table	Columns: Timestamp, Actor (username), Event type, Description/detail, IP address
Pagination	Pagination	50 events per page, newest first

Navigation Flow:

- Breadcrumb → SCR-07 (Admin Dashboard)

Display Conditions:

- Log entries are permanently read-only - no edit or delete actions anywhere on this page
- {No events match filters} "No activity records match your current filters."
- {Actor was later deactivated} Username shown as "[username] (deactivated)" - the username snapshot is preserved in the audit log

3.4 Job Management

3.4.1 Job List (SCR-10)

Field	Value
Who can see	HR Manager, Admin
Purpose	Lists all job postings the HR Manager manages, with filters, search, and status management

UI Components:

Component	Type	Description
"Create New Job" button	Button primary	→ SCR-11 (Job Form)
Status filter tabs	Tab bar	All / Draft / Active / Closed. Count shown on each tab.
Search bar	Input text	Search by job title keyword
Department filter	Dropdown	Populated from distinct departments in the HR Manager's postings
Job list	Card grid	Each card: title (linked to SCR-12), department, location, status badge, application count, deadline (if set), action buttons
Card - Edit button	Button secondary	{Shown when status = DRAFT or ACTIVE} → SCR-11 (pre-filled)
Card - Delete button	Button danger	{Shown when status = DRAFT AND application count = 0} Confirmation required
Card - Publish button	Button primary	{Shown when status = DRAFT} Changes status to ACTIVE. Confirmation required.
Card - Close button	Button secondary	{Shown when status = ACTIVE} Changes status to CLOSED. Confirmation required.

Navigation Flow:

- Click job title card → SCR-12 (Job Detail)
- Click "Create New Job" → SCR-11
- Click Edit → SCR-11 (pre-filled with current data)

Display Conditions:

- [HR Manager] Only their own created postings are shown
- [Admin] All postings across all HR Managers are shown; department filter includes all departments
- Delete button is hidden for any posting that has at least one application (any status including WITHDRAWN)
- Close button is hidden for DRAFT postings; Publish button is hidden for ACTIVE and CLOSED postings
- {No postings match current filter/search} "No job postings match your current filters."

3.4.2 Job Form (SCR-11)

Field	Value
Who can see	HR Manager, Admin
Purpose	Form for creating a new job posting (saved as Draft) or editing an existing one

UI Components:

Component	Type	Description
Page title	H1	"Create Job Posting" (new) or "Edit Job Posting" (edit mode)
Job title	Input text	Required. Max 200 characters.
Department	Input text	Required. Max 100 characters.
Location	Input text	Required. Max 100 characters.
Job description	Textarea	Required. No length limit.
Requirements	Textarea	Optional. No length limit.
Salary range	Input text	Optional. Free text. Max 100 characters. e.g. "15–20M VND"
Application deadline	Date picker	Optional. Must be today or a future date if provided.
Save as Draft button	Button primary	Available in both create and edit mode. Saves and returns to SCR-12 (job detail).
Publish button	Button secondary	{Create mode: not shown (save as Draft first, publish from SCR-12)} {Edit mode: shown only when current status = DRAFT} Saves and changes status to ACTIVE. Confirmation required.
Cancel button	Button secondary	Returns to SCR-10 (Job List) or SCR-12 (Job Detail) without saving

Navigation Flow:

- Save as Draft success → SCR-12 (Job Detail) with flash message: "Job posting saved as Draft."
- Cancel → SCR-10 (Job List) if creating; SCR-12 (Job Detail) if editing

Display Conditions:

- {Edit mode - status = ACTIVE} All fields are editable. Publish button is replaced with a "Save Changes" button (posting remains ACTIVE after save).
- {Edit mode - status = CLOSED} All fields are read-only. No save or publish action available. An info banner shows: "Closed job postings cannot be edited."
- {Deadline set to past date} Inline error: "Application deadline must be a future date."

3.4.3 Job Detail (SCR-12)

Field	Value
Who can see	HR Manager (own jobs), Admin (all jobs)

Field	Value
Purpose	Full detail view of one job posting for HR, with pipeline summary and status management actions

UI Components:

Component	Type	Description
Job title	H1	Job title with current status badge
Job info panel	Form (read-only)	Department, location, description, requirements, salary range, deadline, date created, created by
Application count	Badge	Total number of applications received
Pipeline summary	Chart	Horizontal bar: candidate count at each stage (Applied, Screening, Interview, Offer, Hired, Rejected, Withdrawn)
"Edit" button	Button secondary	{Shown when status = DRAFT or ACTIVE} → SCR-11 (pre-filled)
"Publish" button	Button primary	{Shown when status = DRAFT} Confirmation required
"Close" button	Button danger	{Shown when status = ACTIVE} Confirmation: "Closing will stop accepting new applications. Existing applications are not affected."
"Delete" button	Button danger	{Shown when status = DRAFT AND application count = 0} Confirmation required
"View Applications" tab	Tab	→ SCR-16 (Application List for this job)
"Report" tab	Tab	→ SCR-20 (Pipeline Report for this job)

Navigation Flow:

- Click "Edit" → SCR-11 (pre-filled)
- Click "View Applications" tab → SCR-16
- Click "Report" tab → SCR-20
- Breadcrumb "Jobs" → SCR-10

Display Conditions:

- [HR Manager] Only the creator of the posting can see Edit / Publish / Close / Delete buttons. An HR Manager viewing another HR Manager's posting (via Admin impersonation - not in v1) sees read-only view.
- [Admin] All action buttons are shown regardless of who created the posting.
- {status = CLOSED} Edit, Publish, and Delete buttons are hidden. A banner shows: "This posting is closed and no longer accepting applications."
- Delete button is hidden if application count > 0 regardless of status.

3.5 Candidate Portal

3.5.1 Public Job List (SCR-13)

Field	Value
Who can see	All - including unauthenticated Guest
Purpose	Publicly accessible listing of all Active job postings

UI Components:

Component	Type	Description
Page title	H1	"Open Positions"
Department filter	Dropdown	Populated from distinct departments of Active postings
Location filter	Dropdown	Populated from distinct locations of Active postings
Job listing	Card grid	Each card: title, department, location, deadline (if set), "View Details" button
Sign-in prompt banner	Alert banner	{ Shown to Guest only } "User Login or create an account to apply for positions." - with User Login and Create Account links

Navigation Flow:

- Click "View Details" on any card → SCR-14 (Job Detail - Public)
- Click "User Login" in banner → SCR-01
- Click "Create Account" in banner → SCR-03

Display Conditions:

- Only ACTIVE postings are shown - DRAFT and CLOSED postings are never visible, regardless of the viewer's role
- Guest and signed-in Candidate see identical listing content; only the sign-in prompt banner differs
- {No active postings} Card grid replaced with: "There are currently no open positions. Please check back later."
- {No results for selected filter} "No open positions match your current filters."
- Deadline shown on card only if set; omitted from card if not set

3.5.2 Public Job Detail (SCR-14)

Field	Value
Who can see	All - including Guest
Purpose	Full job posting detail for Candidates and Guests, with the option to apply

UI Components:

Component	Type	Description
Job title	H1	
Metadata row	Text	Department · Location · Deadline (if set)
Job description	Rich text (read-only)	Full formatted description
Requirements	Rich text (read-only)	{Shown only if requirements field is not empty}
"Apply Now" button	Button primary	{Shown to Candidate who has NOT applied to this job} Opens inline application form
Cover letter field	Textarea	{Inside application form} Optional
CV file upload	File upload	{Inside application form} Required. PDF or DOCX only. Max 5 MB. Shows filename after selection with a "Remove" option.
Submit Application button	Button primary	{Inside application form}
Application confirmation	Alert banner	{Shown after successful submission} "Your application has been submitted successfully. Track its status in My Applications." with link → SCR-15
"Already applied" notice	Alert banner	{Shown when Candidate has already applied, including WITHDRAWN} "You have already applied for this position." with link → SCR-15
"Position closed" notice	Alert banner	{Shown when job status is not ACTIVE} "This position is no longer accepting applications."
Sign-in prompt	Alert banner	{Shown to Guest where Apply button would be} "User Login or create an account to apply."

Navigation Flow:

- Successful application submission → confirmation message shown on same page (SCR-14); Apply button replaced by confirmation
- Click "My Applications" link → SCR-15
- Click "User Login" in prompt → SCR-01 (with redirect back to this page after sign-in)
- Breadcrumb "Jobs" → SCR-13

Display Conditions:

- {Guest} Apply button is hidden; sign-in prompt shown in its place
- {Candidate - already applied, any status including WITHDRAWN} Apply button replaced by "Already applied" notice; no reapplication possible
- {Job status ≠ ACTIVE} "Position closed" notice shown; Apply button hidden

- CV upload area: shows selected filename after selection; "Remove" link to deselect

3.5.3 My Applications (SCR-15)

Field	Value
Who can see	Candidate only
Purpose	Allows a Candidate to view the status of all their submitted applications and withdraw if needed

UI Components:

Component	Type	Description
Page title	H1	"My Applications"
Status filter tabs	Tab bar	All / Applied / Screening / Interview / Offer / Hired / Rejected / Withdrawn
Application list	Table	Columns: Job title (linked to SCR-14), department, submitted date, current status badge, Actions
Status badges	Badge	APPLIED = blue · SCREENING = yellow · INTERVIEW = purple · OFFER = teal · HIRED = green · REJECTED = red · WITHDRAWN = grey
Actions - Withdraw	Button secondary	{ Shown only when status = APPLIED or SCREENING } Opens confirmation dialog
Empty state	-	{No applications exist} "You haven't applied for any positions yet." with "Browse Open Positions" link → SCR-13

Navigation Flow:

- Click job title → SCR-14 (Job Detail - Public) for the related job

Display Conditions:

- Withdraw button is hidden for all statuses except APPLIED and SCREENING (not shown for INTERVIEW, OFFER, HIRED, REJECTED, WITHDRAWN)
- WITHDRAWN applications remain in the list permanently - they are never deleted from the Candidate's view
- Internal HR notes are never shown anywhere on this screen
- {No applications match the selected filter tab} "No applications at this stage."

3.6 Recruitment Pipeline

3.6.1 Application List (SCR-16)

Field	Value
Who can see	HR Manager (own jobs), Admin (all jobs)
Purpose	Lists all applications for a specific job posting, filterable by pipeline stage

UI Components:

Component	Type	Description
Job title header	H2	Job title with current status badge - establishes context
Pipeline stage filter tabs	Tab bar	All / Applied / Screening / Interview / Offer / Hired / Rejected / Withdrawn. Count shown on each tab (e.g., "Screening (4)"). Tab updates via htmx - no full page reload.
Application list	Table	Columns: Candidate full name, submission date, days in current stage, current status badge, "Open" button
"Open" button	Button secondary	→ SCR-17 (Application Detail)

Navigation Flow:

- Click "Open" → SCR-17 (Application Detail)
- Breadcrumb "Job Detail" → SCR-12

Display Conditions:

- [HR Manager] Only applications for their own job postings are shown; navigating to another HR Manager's job application list returns a "not found" or "access denied" response
- [Admin] All applications for any job posting are accessible
- {No applications for selected stage tab} "No candidates at this stage yet."

3.6.2 Application Detail (SCR-17)

Field	Value
Who can see	HR Manager (own jobs), Admin (all), Interviewer (assigned applications only)
Purpose	Full view of one candidate's application with all pipeline management actions (HR / Admin) or read-only view with evaluation form (Interviewer)

UI Components:

Component	Type	Description
Candidate info panel	-	Full name, email, submission date, current status badge

Component	Type	Description
"Download CV" button	Button secondary	Downloads the CV file. Access verified before download.
Pipeline stage controls	Button group	[HR Manager, Admin only] Context-sensitive based on current status: Applied → "Move to Screening" / "Reject"; Screening → "Move to Interview" / "Reject"; Interview → "Move to Offer" / "Reject"; Offer → "Mark as Hired" / "Reject". {Hidden for terminal statuses: HIRED, REJECTED, WITHDRAWN}
"Add Note" button + form	Button secondary + Textarea	[HR Manager, Admin only] Opens inline note entry form. Submit via htmx - no full page reload.
Internal notes list	-	[HR Manager, Admin only] Chronological list (newest first): author name, date/time, note content. All notes shown; notes are permanent and read-only after creation.
"Interview Assignment" button	Button primary	[HR Manager, Admin only] {Shown only when status = INTERVIEW} → SCR-18
Evaluation summary	-	[HR Manager, Admin only] {Shown when at least one EVALUATED interview exists} List of evaluations: Interviewer name, scheduled date, rating (★★★★☆ visual), feedback text, evaluation date
"Submit Evaluation" button	Button primary	[Interviewer only] {Shown when the Interviewer has a SCHEDULED interview for this application} → SCR-19
"Evaluation submitted" notice	Alert banner	[Interviewer only] {Shown when interview status = EVALUATED} "You have submitted your evaluation for this candidate." - read-only view of submitted rating and feedback

Navigation Flow:

- Click "Download CV" → file download; stays on SCR-17
- Click "Interview Assignment" → SCR-18
- Click "Submit Evaluation" (Interviewer) → SCR-19
- Breadcrumb "Applications" → SCR-16
- Breadcrumb "Job" → SCR-12

Display Conditions:

- [Interviewer] The entire internal notes section is hidden - not shown as empty, completely absent from the page for Interviewer sessions
- [Interviewer] Pipeline stage controls (Advance / Reject) are hidden
- [Interviewer] "Interview Assignment" button is hidden
- [Interviewer] Can only reach this page for applications they are assigned to; any other application returns "access denied"

- {Application status = HIRED} Banner: "This candidate has been hired." - no further pipeline actions available
- {Application status = REJECTED} Banner: "This candidate has been rejected." - no further pipeline actions available
- {Application status = WITHDRAWN} Banner: "This candidate withdrew their application." - no pipeline actions available
- CV download: access is verified server-side before any bytes are sent - Interviewers can download CV only for assigned applications

3.7 Interview & Evaluation

3.7.1 Interview Assignment (SCR-18)

Field	Value
Who can see	HR Manager (own jobs), Admin (all)
Purpose	Allows HR Manager to assign an Interviewer and set the interview date, time, and location

UI Components:

Component	Type	Description
Context header	-	Candidate name and job title - confirms which application is being scheduled
Interviewer selector	Dropdown	List of all active INTERVIEWER accounts. Sorted by full name.
Interview date	Date picker	Required. Must be today or a future date.
Interview time	Input text	Required. Format HH:mm (24-hour clock).
Location or meeting link	Input text	Optional. Room name or meeting URL. Max 500 characters.
"Assign and Schedule" button	Button primary	Saves the assignment and creates the Interview record
Cancel button	Button secondary	Returns to SCR-17 without saving

Navigation Flow:

- Assign success → SCR-17 (Application Detail) with flash message: "Interview scheduled. [Interviewer name] has been assigned."
- Cancel → SCR-17

Display Conditions:

- {No active INTERVIEWER accounts exist} Interviewer dropdown is empty; a notice appears: "No Interviewers are available. Ask Admin to create Interviewer accounts first." Assign button is disabled.
- {Interview date in the past} Inline error: "Interview must be scheduled for a future date and time."
- Multiple interviews can be created for the same application (different rounds)
 - each creates a new Interview record

3.7.2 Evaluation Form (SCR-19)

Field	Value
Who can see	Interviewer (assigned to this application only)
Purpose	Allows an assigned Interviewer to submit a structured rating and written feedback for a candidate

UI Components:

Component	Type	Description
Context header	-	Candidate name, job title, and scheduled interview date/time - read-only context
Rating selector	-	Star selector (1–5 stars). Required. Clicking a star highlights it and all preceding stars.
Feedback	Textarea	Label "Written feedback". Required. No maximum length.
"Submit Evaluation" button	Button primary	Submits the form. Once submitted, the evaluation cannot be changed.
Confirmation notice	-	A warning shown before the submit button: "Once submitted, your evaluation cannot be edited or withdrawn."
Cancel button	Button secondary	Returns to SCR-17 without submitting

Navigation Flow:

- Submit success → SCR-17 (Application Detail - Interviewer view) with flash message: "Evaluation submitted. Thank you."
- Cancel → SCR-17

Display Conditions:

- {Evaluation already submitted (interview status = EVALUATED)} The form fields are replaced with a read-only view of the submitted rating and feedback. No edit button is shown. A notice: "You submitted this evaluation on [date]."
- {Interviewer not assigned to this application} "Access denied" - the form is not displayed; the page shows an error message
